

Wireless Setup for Mac OS X

#1

Click on the AirPort icon in your Menu Bar and select **"SalemState"**

#2

Enter your network username (S + Student ID) and network password. Choose **"Automatic"** for 802.1x and leave the TLS Certificate as **"None"** if it appears as an option.

#3

If prompted with a Verify Certificate Dialog, click **"Continue"**

Enter your computer's username and password to allow these changes.

#4

Your browser should open automatically. If it does not, open your browser and try to navigate to any page. Enter your network username and password again and click **"Submit"**.

#5 If this is your first time connecting to SalemState on your laptop you will be asked to install a policy key. Select **"Yes, I will install the Macintosh Policy Key"** to download it

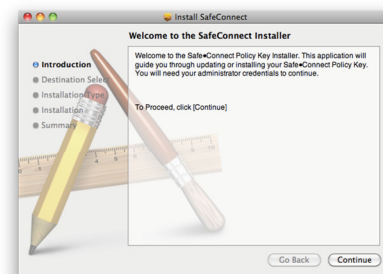

In order to ensure a safe operating environment for all users of the campus network, all computers will be required to install and run various software to ensure a safe operating environment (anti-virus software, appropriate security patches, etc.). To ensure compliance, we require that all users install a software policy key.

[Click here to read the full Policy](#)

[Yes, I will install the Macintosh Policy Key and accept the terms and conditions for Internet Use](#)

#6

Launch the installer and click **"Continue"** to begin installing SafeConnect.

#7

Select the disk where you want safe connect to be installed and click **"Continue"**

#8

Verify that you have selected the correct installation location and click **"Install"**.

#9

Again, enter your computer's username and password to allow these changes.

#10

You should receive confirmation that SafeConnect has been installed. Click **"Close"**. It may take a few minutes before you can navigate to another website

If you get stuck please make sure you have completed each step properly and have entered the correct credentials. If you still cannot complete setup, contact a lab attendant, the helpdesk or, student support services. Be sure to note at which step you are having trouble.
