

# Alcohol, Drug, Tobacco and Hazing Policy Information

The use of illicit drugs and alcohol at Salem State University, on university property or at university activities impairs the safety and health of students and employees, inhibits the personal and academic growth of students, lowers the productivity and quality of work performed by employees and undermines the public's confidence in the university. Only in an environment free of substance abuse can Salem State University fulfill its mission of developing the professional, social, cultural and intellectual potential of each member of this community.

The information which follows outlines the standards of conduct that clearly prohibit the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on University property or as a part of any university activities and describes the applicable legal sanctions, associated health risks and support programs and services available to employees and students. All members of this community – faculty, staff and students – are urged to carefully and seriously reflect on their personal responsibility to remain drug free, and further, to demonstrate care and concern for others through timely intervention, support and referral.

The university's policy on hazing and the responsibilities of students, student groups and organizations together with the penalties for involvement in such activities is also contained herein.

## Good Samaritan Policy

In order to ensure that students receive prompt and appropriate attention for alcohol intoxication and that there are no impediments to seeking such assistance, the university upholds a *Good Samaritan Policy*.

In those instances in which a student calls the campus police or another university office for assistance with an intoxicated or impaired student, neither the individual calling nor the student in need of assistance will be charged with violations of the university's policies on alcohol and other drugs. (This policy does not preclude disciplinary action regarding other violations of university standards, such as causing or threatening physical harm, sexual abuse, damage to property, harassment, hazing, etc. Students should also be aware that this university policy does not prevent action by local and state authorities.) Students who are taken to the hospital for treatment related to alcohol will be referred to the university's counseling and health services. Serious or repeated incidents will prompt a higher degree of intervention from the office of student life with possible disciplinary actions. This policy is designed to save lives. The spirit of the Good Samaritan Policy is that we all have an ethical responsibility to help people in need. There is an expectation that students will take active steps to protect the safety and well-being of our community.

## TOBACCO-FREE CAMPUS INITIATIVE

Salem State University recognizes the medical evidence that indicates that smoking and the use of tobacco products create a serious health hazard, and that this health hazard extends to non-smokers forced to breathe second-hand smoke. The primary responsibility of the university is to provide a healthful working and learning environment.

In the interest of further protecting the health and well being of members and visitors of the university community, as of **September 1, 2011, the use of any tobacco products is prohibited on our campus.** This includes all buildings, grounds, parking lots, work areas, offices, restrooms, lobbies, public entrances, any vehicle parked on campus, etc. Because of our collective concern for the environment, our awareness of the harmful effects of tobacco use on the user, and how much is being written about the effects of second-hand smoke on the non-smoker, we are committing ourselves to a tobacco-free environment at Salem State University.

Recognition of this responsibility has resulted in the development of the following standards:

1. *The use of tobacco products is prohibited anywhere on the university campus, in any university building, in any vehicle owned, leased or rented by the university or any privately owned vehicle on campus grounds.*
2. The sale of tobacco products on campus is prohibited.

3. As with any university standard, violators will be subject to disciplinary action as prescribed in the university's student rules and regulations or appropriate agreement between the BHE and the university's unionized employees.
4. These university standards will be enforced by the campus police department.
5. Individuals should not bring cigarettes/tobacco products onto the campus.
6. These standards will be distributed annually to all departments and will be posted on all official university bulletin boards. Successful implementation of these standards requires a university-wide cooperative effort. All members of the university community are urged to assist in this endeavor. Any employee or student who believes he/she is being subjected to second-hand smoke should inform the offending party of the existence of these standards and request that he/she adhere to its conditions. If the request is not effective, the violation should be reported to the campus police department.

## **Policy**

In compliance with the laws of the Commonwealth of Massachusetts, smoking is prohibited in all buildings administered by Salem State University.

In addition, the university has adopted a tobacco-free campus initiative and there is no use of tobacco products anywhere on campus property, including in vehicles in campus parking lots. Violation of these standards will subject the individual to disciplinary procedures found for students in the student conduct code or for employees in the applicable collective bargaining agreement.

## **Smoking Cessation**

A tobacco-free campus initiative has been implemented which includes an education and awareness component, smoking cessation opportunities, and other continuing efforts to facilitate the implementation of these new standards. Students seeking help with smoking cessation may contact counseling and health services at 978.542.6410. Employees may contact human resources to learn what services are available through our employee assistance program or you may contact your personal health insurance company.

## **Publicity**

Every effort will be made to inform all members of the university community and public about the University's tobacco-free campus initiative. Such notification will include: signs in all buildings and on campus grounds, announcements at public events, reminders on programs and other materials, inclusion of the standards in the student handbook, accessibility via the university's Counseling and Health web page at [salemstate.edu/assets/documents/chs/ADTH.policy.9.2011.pdf](http://salemstate.edu/assets/documents/chs/ADTH.policy.9.2011.pdf) and will be relayed during orientation sessions for new employees and new students.

## **Coverage**

This policy shall apply to all administration, faculty, staff, students, and guests of Salem State.

## **Compliance**

It is expected that all members of the university community will respect the intent of these standards and will comply with them voluntarily. However, it is the responsibility of anyone who observes or is affected by a violation to remind the offending party of these standards. If such a reminder is not effective the violation should be reported to the campus police department.
