RE: Undergraduate Survey Results

---

This year Career Services once again conducted a brief survey of undergraduate students in the gymnasium just prior to the graduation ceremony. Out of 780 individuals who participated in graduation, 540 individuals completed the survey. Please note that in a number of cases graduates did not answer all questions asked. The survey, in addition to capturing a snapshot of the graduating class, provides Career Services with a wonderful opportunity to remind new alumni that our services continue to be available to them after graduation.
